# NANDISHA D

## Aspiring Professional

"As an aspiring professional in the software engineering field, I am thrilled to submit my resume for your consideration. The opportunity to work in a cutting-edge technology environment aligns perfectly with my career goals and passion for innovation."

## Projects

### UX / UI on App Designing

#### CALCO

I'm actively developing an innovative Android app that revolutionizes financial decision-making. This app calculates optimal investments, considering risk and available capital. It also calculates forex trading movements based on lot size. Additionally, it integrates real-time option premium data for advanced risk management, helping users set precise stop-loss and target levels in real-time.

### Project on Android App development

#### Gita Quotes

We created an Android app for reading Bhagavad Gita quotes chapter-wise, featuring categorized shlokas for easy navigation. The app, developed in Java using Android Studio, offers a seamless and immersive experience for exploring the spiritual wisdom of Bhagavad Gita. Its user-friendly interface allows convenient access to each chapter's wisdom, making spiritual exploration accessible and enriching.

### Project on web development

#### E - Commerce Website

I am currently working on an e-commerce website focused on selling agricultural products. Through a user-friendly interface, farmers and agricultural enthusiasts will have access to a diverse catalog of high-quality agri-products, including seeds, fertilizers, pesticides, tools, and equipment. My goal is to provide a reliable online marketplace that empowers the agricultural community to boost productivity and yield.

## Certifications

- Cyber Security ( by Pal0Alt0 )
- Big Data (by Ekathva Innovation P.L)

## Conclusion

"In summary, I am an enthusiastic individual with a passion for excelling in design and implementation. My academic and project experiences have sharpened my skills, making me an adaptable and committed team member. I look forward to collaborating with professionals to drive innovation and success in your organization. Thank you for considering my application."
